

Software Engineering Internship

Company: Tech Innovations Inc.

Location: San Francisco, CA (Hybrid)

Duration: Summer 2025 (12 weeks)

About the Role:

We are seeking a talented software engineering intern to join our team.

You will work on real-world projects using modern technologies including Python, React, and cloud infrastructure.

Requirements:

- Currently pursuing a degree in Computer Science or related field
- Strong programming skills in Python or JavaScript
- Understanding of data structures and algorithms
- Excellent problem-solving abilities
- Good communication skills

Preferred Qualifications:

- Experience with web frameworks (FastAPI, Django, Flask, or Express)
- Familiarity with React or Vue.js
- Knowledge of Git and version control
- Previous internship or project experience

What You'll Learn:

- Full-stack web development
- Cloud deployment and DevOps practices
- Agile development methodologies
- Code review and collaboration best practices

Benefits:

- Competitive hourly rate (\$25-35/hour based on experience)
- Mentorship from senior engineers
- Flexible work schedule
- Professional development opportunities
- Free lunch and snacks

Application Process:

1. Submit your resume and cover letter
2. Complete a coding challenge
3. Technical interview with the team
4. Final interview with hiring manager

To Apply:

Send your application to: internships@techinnovations.com

Application Deadline: December 15, 2024

We are an equal opportunity employer and value diversity.
